Route Delivery Accounting from **GoRoute**

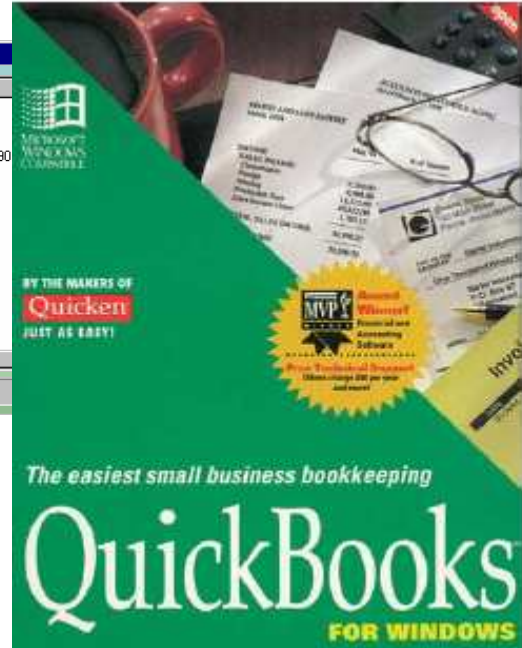

GoRoute QuickBooks™ Edition

QuickBooks – Powerful and Cost Effective.

QuickBooks is the largest selling accounting system for small business. Its easy-to-use interface and extensive capabilities have made it a favorite for many distribution companies.

Integrated Advantage has augmented QuickBooks with a Route Accounting Host, improving

your efficiency by electronically importing invoices, credit memos and receipts from the handheld system directly into the QuickBooks system.

GoRoute – QuickBooks Edition Features

features

Key features of the GoRoute QuickBooks Edition are:

- Transfer customers, items, sales reps, tax schedules, etc. to the handheld systems.
- Upload all invoices, orders, credit memos, and receipts from the handheld directly into the QuickBooks system.
- Generate route sales on the handheld systems using detailed handheld invoicing and related transactions.
- Keep accurate control over truck stock.
- Speed end-of-day report generation and close out, allowing drivers to spend more time on the road servicing customers.
- Eliminate invoice re-entry by electronically loading into

QuickBooks™ is a registered trademark of Intuit Software Inc.

Intuit Software, makers of QuickBooks, QuickBooks Pro and QuickBooks Enterprise bring a stable and growing company to back up your organization plus a flexible array of products and services that help you succeed.

QuickBooks after drivers return from the field.

- Eliminate item selection and item pricing problems by using the QuickBooks item and pricing model.
- Extend the QuickBooks item and pricing model by providing advanced promotion price schedules.

GoRoute Host and QuickBooks Deliver the Best of Both Worlds

GoRoute Host seamlessly links to QuickBooks Pro, providing the additional functionality required of Direct Store Delivery companies without "recreating" the core accounting functions that QuickBooks Pro does so well. This allows us to deliver more functionality at a lower cost to you.

A Complete Solution

With GoRoute Host's powerful standard features and optional capabilities, you can design a route accounting solution that will let you get it right, both now and in the future.

Detail Functionality

Some of the detailed functionality includes the following:

- Load customers, items, prices, tax schedules, sales reps from your accounting system to the host ready for transfer to each handheld.
- Transfer invoices, credit memos, pre-orders and inventory transactions back to your corporate host.
- Generate reports on route productivity.
- Reprint invoices with electronic signatures stored on each invoice.
- Create advanced promotion pricing models that meet your specific needs.
